

# Retaining Wall at Drake's Hollow

## Project Description Sheet

### Location

Drake's Hollow,  
Walton-le-Dale, Preston

### Client

Kudos Construction Ltd

### Commenced

June 2003

### Key Project Elements

Retaining wall design and  
supervision on site

PSA Design were commissioned to design a reinforced soil retaining wall up to 2 metres high to the rear of a residential property in Walton-le-dale, Preston. This was to replace a failed structure.

As access was severely restricted, Utilised Tensar TWI blocks combined with a Uniaxial Geogrid were used.

The cost of the construction of the retaining wall was approximately £30K.
