

# Community Primary Care Centres Transport Assessment Scoping Study

## Project Description Sheet

### Location

Blackpool

### Client

Blackpool PCT

### Commenced

2004

### Key Project Elements

Transport Assessment  
Scoping Study

PSA Design were commissioned to undertake Transport Assessment Scoping Studies with respect to the potential development of Community Primary Care Centres at various sites within the Borough of Blackpool. The purpose of the Study was to obtain an initial overview of the constraints and opportunities existing at each of the sites from both site surveys and consultation with the highway authority.

The potential sites were located in the North, Central and South areas of Blackpool at both new and existing PCT sites. The specific sites considered are:

- North Locality - Bispham Clinic and Moor Park
- Central Locality - Whitegate Drive
- South Locality - Lytham Road Health Centre and South Shore Hospital
